# TECHNOLOGIES THAT MAKE A DIFFERENCE.

## H2OPTICS® SENSING TECHNOLOGY

Delta® electronic faucets and flush valves with H2Optics Sensing Technology operate consistently, overcoming such factors as dark clothing or lighting conditions. They're also water efficient\*, contributing to LEED® certification.

## BATTERY BACKUP FOR HARDWIRE-OPERATED ELECTRONICS

Battery backup lets hardwire units keep working through power outages, by temporarily switching to a 9-Volt battery. Available to order for most Delta hardwire-operated electronic models.

\*Water-Efficient Product—Lavatory faucets: flow rate of 1.2 gpm versus Industry Standard ASME A112.18.1/CSA B125.1 of 2.2 gpm. Flush valves: water closet flush valves flow rate of 1.1 or 1.27 gpf and urinal flush valves of .5 gpf versus Industry Standard ASME 112.2.

# SOLAR LAVATORY FAUCETS

Drawing power from natural and artificial light sources, our energy-efficient solar lavatory faucets incorporate a 0.5 gpm spray outlet to add water savings. Convenient hands-free infrared sensing promotes hygiene, while above-deck components ease installation and maintenance. Batteries add extra dependability.

# PROXIMITY® SENSING TECHNOLOGY

Proximity Sensing Technology—the next generation in hands-free functionality—makes Delta electronic faucets the most responsive in the industry. The entire faucet body acts as a sensor, activating water flow when approached and stopping once hands are removed. And the lack of an exposed sensor reduces the risk of sensor damage from vandalism or cleaning products.

# DIAMOND™ VALVE

By reducing buildup of calcium and mineral deposits, our durable DIAMOND Valve eliminates wear on seals, reducing leaks and helping faucets last longer.

# IN2ITION® TWO-IN-ONE SHOWER

Our In2ition Two-in-One Shower offers two streams of water at once, so users can put water where they need it most—using the integrated shower heads together or separately. In its primary position, the In2ition Shower functions as a regular shower head, while the hand shower offers the flexibility for closer-range tasks.

# H2OKINETIC® TECHNOLOGY

H2Okinetik Technology sculpts water into a unique, oscillating wave pattern that delivers more warmth, more intensity, and 3X the coverage\* of a standard shower. Users get the feeling of more water, without using more water—helping you save on utility costs, and contributing points toward LEED® certification.

\*Coverage measured in accordance with EPA WaterSense® Specification for Shower Heads, March 4, 2010.

# MULTICHOICE® UNIVERSAL VALVE

Installing the Delta® MultiChoice Universal Valve makes it easier to upgrade style and functionality later, without changing plumbing behind the wall. Multiple connection options and a high-flow rough for shower-only configurations add even more flexibility, while a refined temperature limit stop allows more precise settings.

WS—with stops recommended for Commercial applications.

### Three Connection Types

**WARRANTY**

These Delta® products are warranted to the original consumer purchaser or commercial user. Please refer to the “Limited Warranty” enclosed with each Delta product for specific details. Additional copies are available upon request.

**RETURNED GOODS**

Merchandise MAY NOT be returned for credit or replacement without prior inspection and written authorization from Delta Faucet Company (DFC). Any unauthorized return of products is expressly prohibited. A handling charge of 50% will be assessed against anyone attempting to return merchandise without prior authorization. Only product purchased directly from Delta Faucet Company by a wholesaler will be authorized for return. NO EXCEPTIONS.

**WARRANTY RETURNS**

A full wholesale price credit will be issued to authorized Delta Faucet wholesaler customers for returned merchandise that is defective as described in the warranty. The defective merchandise must be shipped freight prepaid by the least costly method of shipment and the freight cost of such shipment will be added to the price credit. If a replacement is made rather than a credit issued, Delta Faucet Company will ship the replacement freight prepaid. Product returned as defective that is found to be misused, abused, modified or otherwise NOT DEFECTIVE will receive credit at scrap value only.

**OTHER RETURNS**

All other returns will be handled in accordance with the then-current DFC Return Policy for Non-Defective Faucets, copies of which are available upon request.

**PRICES**

All prices and specifications of models are subject to change without notice. Orders will be invoiced at the prices prevailing at time of shipment.

**NOTE**

All orders are subject to all applicable DFC policies in effect at the time of order.

These Terms of Sale are subject to change without notice.

**RETURN ADDRESS**

All returns are to be sent to the following address:
