

INSTANT HOT WATER FAUCETS

in sink erator®

INSTANT CONVENIENCE

NOW AVAILABLE AT YOUR FINGERTIPS.

Whether you're cooking, cleaning or preparing hot beverages, InSinkErator® makes hot water happen instantly. Our instant hot water dispensers are more than useful, they're the perfect complement to your existing main faucet and an elegant addition to any kitchen. InSinkErator instant hot water dispensers help you save time, space and energy in the kitchen - all while safely dispensing instant convenience. Cook pasta al dente, serve the perfect cup of tea, prepare baby bottles and foods, and clean without harsh chemicals. There's really no limit to what you can do with near-boiling water. You'll soon wonder how you ever lived without it.

PROOF THAT FORM CAN BE BOTH BEAUTIFUL AND FUNCTIONAL.

When form is functional, it makes cooking, cleaning and preparing hot beverages effortless by providing instant hot water on demand. When form is beautiful, it blends elegant design lines with shimmering surfaces to complement any style of kitchen faucet. Introducing the Showroom Collection of instant hot water dispensers by InSinkErator. Six stunning new designs and eight lustrous finishes, all available in the convenience of instant-hot or hot & cold models. We've refined the details of every line, curve, measurement and hue. The result is an inspired collection that's stylish enough for a gallery of art, but practical enough for day-to-day living.

TRANSITIONAL 1010

Elegance has the power to transform every space it touches. Blending modern simplicity with traditional luxury, the Transitional 1010 employs sleek design proportions, smooth surface elements, and bell-shaped aesthetics to add an understated sophistication to the kitchen. Pair it with main faucets that feature transitional design lines and finishes.

CHROME STAINLESS STEEL ARCTIC STEEL

OIL-RUBBED BRONZE CLASSIC OIL-RUBBED BRONZE

TRANSITIONAL 1020

Square at the base, tapered at the neck, and softly squared at the spout, the stylish Transitional 1020 proves once again that it's hip to be square. For precise detailing, we even added tapered squares to the dispenser's low-profile handles. Pair it with main faucets that feature transitional design lines and finishes.

CHROME STAINLESS STEEL ARCTIC STEEL
CLASSIC OIL-RUBBED BRONZE

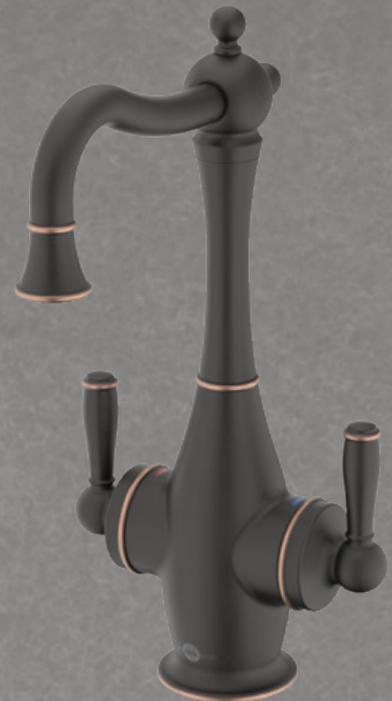

TRADITIONAL 2010

With its timeless grace, classic styling and delicate details, the Traditional 2010 serves as a sophisticated centerpiece to the active kitchen. A vase-shaped body, curvaceous neck, and ringed end piece provide a welcomed complement to any home environment. Pair it with main faucets that feature traditional design lines and finishes.

TRADITIONAL 2020

Inspired by the elegance of a vintage street light, the Traditional 2020 exudes the time-honored charm of a venerable antique. At home in any decor, its bold silhouette gives you the freedom to create a look that is truly your own. Pair it with main faucets that feature traditional design lines and finishes.

MODERN 3010

Clean, timeless and contemporary are the design hallmarks of the Modern 3010. We begin with the simplicity of a cylindrical base, add the clean lines of a J-shaped spout, and finish with proportionally designed cylinder handles. Behold, modern minimalism on exhibit. Pair it with main faucets that feature contemporary design lines and finishes.

MATTE BLACK BRUSHED BRONZE POLISHED NICKEL

MODERN 3020

Looking to add a distinctive statement to your kitchen's contemporary aesthetics? Beautifully organized and handsomely structured, the Modern 3020 features a European-inspired, U-shaped spout that commands the attention it deserves. Pair it with main faucets that feature contemporary design lines and finishes.

TASTEFUL AND PRACTICAL.
REMINDE YOU OF ANYONE?

HWT300

HWT200

WARM UP TO PREMIUM TECHNOLOGY, PERFORMANCE AND EFFICIENCY.

InSinkErator instant hot water tanks are engineered with stainless steel tank construction, easy-to-adjust temperature controls and superior energy efficiency. Our HWT300 digital instant hot water tank offers an adjustable digital touch-screen thermostat control, so you can select the perfect water temperature - between 190°F and 210°F - for the perfect tasting hot beverage. The dependable performance of our standard HWT200 tank delivers up to 208°F water, and features precise temperature control, an adjustable thermostat and LED temperature indicators.

CONTEMPORARY 1100

Thanks to its modern flair and blended design, Contemporary 1100 infuses the kitchen with added energy and instant convenience. Sleek, elegant and engaging, this hot water dispenser is at home in any kitchen. Pair it with faucets that feature universal design lines and finishes.

CHROME SATIN NICKEL POLISHED NICKEL BRUSHED BRONZE

MODERN 3300

Sleek, bold and edgy, Modern 3300 is the perfect hot water dispenser for homeowners seeking modern minimalism in their kitchen settings. Designed with clean lines and contemporary styling, Modern 3300 blends household efficiency with a form that competes with fine art. Pair it with faucets that feature contemporary design lines and finishes.

CHROME SATIN NICKEL POLISHED NICKEL MATTE BLACK

TAP INTO COLD FILTERED WATER AND RAISE A GLASS TO YOUR HEALTH.

C1100

Combine universal design lines with the availability of refreshingly chilled drinking water and you have the essence of the C1100 cold only water faucet. For use with an InSinkEerator Water Chiller and/or an optional filtration system, the C1100 features solid brass construction, a corrosion-resistant ceramic disc valve, and a spout that swivels 360° for added convenience.

CHROME SATIN NICKEL

CWT100 WATER CHILLER

Designed to fit right under your kitchen sink, the new CWT100 Water Chiller is ready to dispense water as cool as 40°F, so you can enjoy perfectly chilled drinking water right at the kitchen sink. Features a stainless steel storage tank and water connections, an adjustable thermostat, and a compact under-sink footprint.

FILTRATION

Give yourself the gift of health by adding an InSinkEerator water filter to your instant hot water system or water chiller. Our filters ensure that your near-boiling or cold drinking water always tastes great. F-2000 reduces cysts, lead, mercury, asbestos and more – along with particulates, chlorine taste and odor. F-1000 reduces particulates, chlorine taste and odor.
