

October 29, 2021

To Our Valued Customers:

Current market conditions have become increasingly unstable due to several key factors: escalating raw material costs, rising labor costs, and a multitude of supply chain issues and shortages. Therefore, we are forced to initiate TWO changes at Legend Valve. First, a list price increase on many of our products but NOT all. Second, we are increasing our prepaid full freight allowance requirements.

Effective on November 30, 2021, Legend will be implementing a price increase. The increase will be reflected in a list price adjustment. This increase varies among item classes as well as individual items. Your multipliers will not change.

Effective on November 30, 2021, Legend will increase the prepaid freight allowance to the following:

- **Standard FFA \$2,000 net. (excludes: Cast Iron Products, VersaTherm, QuickTherm, and sticks of pipe.)**
- **\$3,000 on any order containing Cast Iron Products**
- **\$4,000 net on any order containing sticks of pipe, VersaTherm, and QuickTherm products.**

All orders received by 5:00 PM November 29 will be billed at the current prices. Limit rights may apply.

The percentages below are averages and some individual SKUs may vary.

Item Class	Ave % Change	Comments	Item Class	Ave % Change	
1/4 Turn Low Pressure	5.0%		Insert Fittings	5.3%	
Air Vents	1.1%	Select Items	Legend Press Ball Valves	3.5%	
Anti-Scald Valves	4.9%		Water Distribution Manifolds	3.9%	
Backflow Preventers	5.0%		Log Lighter Valves	5.0%
