**E-MAX®** indicates high performance, high-efficiency flushing technology using only 1.28 GPF. It features a 3" wide flush valve, large trapway, and extra-large siphon jet.

**CeFiONtect™** glaze prevents visible and invisible waste from sticking to ceramic surfaces, leading to the use of less chemicals and water to clean.

**TORNADO FLUSH™** features a state-of-the art, hole-free rim design that offers dual nozzle bowl cleansing, creating a centrifugal rinsing action that cleans the bowl more efficiently.

**Universal Height** indicates toilets that allow for a more comfortable position across a wide range of users.
